42nd E.T. Bell Fall Pathology Symposium:
Gastrointestinal Pathology

Jointly Provided by the E. T. Bell Institute of Pathology, Department of Laboratory Medicine and Pathology and Innovative Continuing Education, LLC

and

The Minnesota Society of Pathologists' Seminar:
Clinically Relevant GI Pathology Update

Jointly Provided by the Minnesota Society of Pathologists and Innovative Continuing Education, LLC
EDUCATIONAL OBJECTIVES
At the conclusion of the program, learners should be able to:
1. Explain diagnostic criteria and management algorithms of common GI pathology entities.
2. Gain clinically-oriented knowledge that improves their communication with their providers.
3. Understand a wide range of GI lesions with practical differential diagnosis clues.
4. Increase purview of understanding of drug effects in the GI tract.
5. Provide a practical understanding of the molecular testing involved in GI cancer.

STATEMENT OF NEED
This symposium will present recent advances in the field of GI pathology. The presentations will emphasize the need for an inter-disciplinary approach to diagnosis and treatment, and will focus on recently described entities, diagnostic criteria, differential diagnosis and the impact of our diagnosis on prognosis and therapeutic decisions.

AUDIENCE
This conference would be ideal for practicing pathologists, pathology residents, and oncologists.
